EDUCATION

Covenant University 2012 - 2017
Bachelor of Engineering, Computer Engineering

Udacity 2017
Front End Web Development Nanodegree

EXPERIENCE

Full Stack Web Developer Jan 2018 – Jan 2019
Signal Alliance Lagos

- Developed a full stack Ecommerce web application using C#, ASP.NET MVC, HTML and CSS
- Explored ways to implement blockchain technology into the company's processes

Software Engineer Feb 2019 – Jul 2019
Andela Lagos

- Developed a blog website using React
- Created multiple REST API endpoints for performing complex CRUD operations using NodeJs, Express and PostgreSQL
- Implemented extensive unit and end to end tests using Jest, Enzyme and Cypress
- Setup CI/CD pipelines to ensure projects were of the highest standards by implementing GitHub PR checks for test coverage and code smells. Tools like Travis CI and codecov were used for this
- Contributed to several Vue projects by implementing features and fixing bugs

Frontend Web Developer Aug 2019 – Jan 2021
RocketBC Hong Kong

- Led the implementation of the frontend for a DeFi yield farming feature of a web application using Vue JS
- Implemented features and bugfixes for a crypto block explorer website using Vue
- Built a blockchain powered guessing game linked to MetaMask wallet for staking and collecting rewards
- Facilitated multiple knowledge sharing sessions within the team

Frontend Web Developer Jan 2020 – Feb 2021
SuperFluid Tallinn, Estonia / UK

- Developed the user dashboard for a web3 crypto streaming platform using React and NextJS
- Worked on the company's Google Chrome Extension

Software Developer Feb 2021 – present
Trivago Dusseldorf, Germany

- Led the implementation of several high performing features used by millions using React, TypeScript and GraphQL
- Prepared technical design documents for complex features on the core metasearch offering
